

Instructions for Email Activation

Deployment Analyzer

1. Go to www.deploymentanalyzer.com to log into the Deployment Analyzer
2. Enter your company issued Username and Password, along with your Client Email ID (company email address)

Please note: The Client Email ID must be a company issued email address, and will not accept personal email addresses (Hotmail.com, gmail.com, etc.)

The screenshot shows the login interface for the Deployment Analyzer. At the top is the PFi logo, which consists of the letters 'PFi' in blue and orange, followed by a blue circle containing a white magnifying glass icon. Below the logo is the text 'Deployment Analyzer' in a blue, italicized font. Underneath are three white input fields with light blue borders, labeled 'User Name', 'Password', and 'Client EmailID'. Below the input fields is a checkbox labeled 'Remember me'. At the bottom is a large blue button with the text 'Sign in' in white.

3. If your email address has not yet been registered or has expired, you will be redirected to an activation page that will require you to enter a 5-digit activation code.
4. An email containing the activation code will be sent to the email address you had entered into the Client Email ID. **Do not exit out of the activation page while you are waiting for the activation code.**
5. If you have not received the email containing the activation code within 20 minutes, please check your junk mail or click the link on the activation page that will regenerate an email containing a new activation code.
6. Once you receive the email containing the activation code, copy the 5-digit code, paste it into the box on the activation page, and click "verify code". For security reasons, each code is only valid for 24 hours.

If you are still experiencing difficulty logging into the the Deployment Analyzer or activating your email address, please contact our support team at pfi@pharmaforceintl.com or by phone at 1-610-370-5640
